

# Sri Lanka Hope for Children

Dear sponsor parents,

2017-2018

This time you read a letter written by Ramani.

In 2008 we (Natasja and Ramani) started to help 18 children to start their schooling in a very poor school in very remote area in Sri Lanka. After ten years we are able to help 345 children to get their education. We are helping them in different schools in different areas. We are able to do this because of you and your kind help for only 50 Euro (and above) per child you help us to give those children a better life. Some of our children are already in the universities.

In November we are doing our preparation for buying and packing the individual package for the coming year. We have to think of each child separately. Their shoe size, uniform size and which grade there are going to be in next year. This is a team work, including the teachers of the schools in each class. We are lucky to get some volunteers to help with this work too. Some of our sponsors are also willing to come and help us and they can see how everything is working and of course their children's progress.

So we are thanking all of you who is taking part in this work and without you we will be not able to continue this project. So please stay with us and help us.

Greetings from Ramani Smits en Natasja Lammers
